

#BW20-500 LOG SET

NOTE: Log numbers are located on the bottom of each log. Refer to the following instructions and illustrations for proper log placement. Your components may look different than the ones shown.

CAUTION: Do not place logs directly over burner port holes. Improper log placement may affect flame appearance, and may cause excessive soot to build upon the glass.

1. Align the holes in the bottom of the ember panel with the (2) mounting pins located on left and right side of the front burner. Push to seat.
2. Align the holes in the bottom of logs BW20-1, BW20-2, and BW20-3 with the mounting pins on the back burner. Push logs down onto pins to seat.
3. Position logs BW20-4 and BW20-6 with the notches in base log BW20-1 and ember panel as shown.
4. Align log BW20-5 with the notch on log BW20-1 and the ember panel as shown.
5. Distribute rockwool embers onto the logs and burner using a stiff bristle brush.
