Each unit factory tested
Refer to the installation manuals for complete installation & venting requirements. See additional mantel clearance configurations in the installation manual.

Note: Over time, antique copper will react with oxygen, heat, and other aspects of the environment and naturally change color, or patina.

Features, Options & Specifications are subject to change.
Outdoor Covered Fireplace Install

- Fireplace operation is approved from 40 degrees F to 110 degrees F
- All wiring connections shall be in accordance with outdoor requirements of NECA NFPA 70
- All clearances and requirements in your appliance manual must be adhered to

**EXAMPLE:** If roofline (B) is 10 ft. above the base of the fireplace, the overhang (A) must be 5 ft. or greater. The width of the overhang to EACH side of the fireplace (C) must be 5 ft. or greater.
In order to continually provide the highest quality product available, features/options, specifications & dimensions are subject to change. Refer to the unit installation manual for complete installation instructions. Installation must conform with local building codes. In some regions it may be possible that this appliance qualifies for an energy rebate. See your local dealer for details regarding promotions and qualifications.

Accessories & Controls

Komfort Kontrol

The Komfort Kontrol remote gives you the ability to bring comfort and green technology all together into your home. With the Komfort Kontrol remote, all you have to do is decide a comfortable set point temperature on your remote and when the room temperature gets closer to the point you desire, the Komfort Kontrol remote will turn the flames down accordingly! And with our zone heating, you can save energy and enjoy time in the room you use the most by just turning down the central heat, setting your Komfort Kontrol remote, and enjoy your time around the fireplace with friends, family, or just a good book! That way you’ll get to have heat where and when you need it while saving energy and money with just a click of the Komfort Kontrol remote!

Remote control features:

- Thermostat function
- Light kit modulation
- Flame height modulation
- IPI to continuous pilot
- Fan speed modulation

Bayport 36 Millivolt

Option Controls

Thermostat Remote or Deluxe On/Off Remote
Wired or Wireless Wall Mount Thermostat
