Remote Control

The Komfort Kontrol remote gives you the ability to bring comfort and green technology all together into your home. With the Komfort Kontrol remote, all you have to do is decide a comfortable set point temperature on your remote and when the room temperature gets closer to the point you desire, the Komfort Kontrol remote will turn the flames down accordingly! And with our zone heating, you can save energy and enjoy time in the room you use the most by just turning down the central heat, setting your Komfort Kontrol remote, and enjoy your time around the fireplace with friends, family, or just a good book! That way you'll get to have heat where and when you need it while saving energy and money with just a click of the Komfort Kontrol remote!

Remote control features:

- Thermostat function
- Flame height modulation
- Fan speed modulation
- Light kit modulation
- IPI to continuous pilot

Outdoor Covered Fireplace Install

- Fireplace operation is approved from 40 degrees F to 110 degrees F
- All wiring connections shall be in accordance with outdoor requirements of NECA NFPA 70
- All clearances and requirements in your appliance manual must be adhered to

The overhang (A) must be a minimum of 1/2 or greater of the roofline elevation (B) above the base of the fireplace.

The width of the overhang to each side of the appliance (C) must be a minimum of 1/2 or greater of the roofline elevation (B) above the base of the fireplace.

EXAMPLE: If roofline (B) is 10 ft. above the base of the fireplace, the overhang (A) must be 5 ft. or greater. The width of the overhang to EACH side of the fireplace (C) must be 5 ft. or greater.

SLAYTON 36

Specifications, Clearances, and Vent System Requirements

Model	Slayton 36
Height	28-13/16"
Width	43-5/8"
Back Width	43-5/8"
Depth	15-13/16"
Weight	200 lbs.
Viewing Area	14-1/16" x 36"
NG High / Low	33,000 / 17,000
LP High / Low	33,000 / 17,000
ENERGUIDE P.4 NG / LP	66.05% / 68.05%
Steady State NG / LP	71.21% / 73.05%
AFUE % NG / LP	65.74% / 66.84%
Valve System	IPI
Standard Refractory	Enamel (curved)
Glass Media	Required
Accent Media	Optional
Fan Kit	Optional
Finishing Trim Kit	Standard
Screen Front	Required

Features, Options & Specifications are subject to change.

Clearances

Model	Slayton 36
From Appliance Corners	4"
From unit left & right side stand-offs & back	0"
Top of finishing edge to ceiling	36"
Side of finishing edge to adjacent sidewall	6"
Unit front to combustibles	36"
Mantel projection from fireplace finishing edge*	14-1/4" *1" deep projection

Refer to the installation manuals for complete installation & venting requirements. See additional mantel clearance configurations in the installation manual.

Each unit factory tested

Certified to ANSI Z21.88 Vented Gas Heaters

Slayton 36

19" (483mm)* is the minimum wall depth required for wall surface material to cover fireplace front. If fireplace face is to be flush with the wall surface, subtract 1/2" (13mm) (typical non-combustible finish material) from this dimension. If other material is to be used, adjust accordingly.

Vent System & Requirements

This fireplace is manufactured to accept 5"x 8" rigid and flexible pipe.

- Simpson Dura-Vent™ DV-PRO pipe - 5"x 8"
- Selkirk Metalbestos™ direct chimney system - 5"x 8"
- Ameri-Vent/American Metal™ direct chimney system - 5"x 8"
- Olympia Chimney Supply
- Metal Fab™ 5"x 8"
- ICC™ 5"x 8"
- Kozy Heat™ flexible #800 series vent kits - 5"x 8"
- BDM™ direct vent chimney system - 5"x 8"

Elbows: For each additional 90° elbow used after the first elbow, 3' must be subtracted from the maximum venting allowed. For each additional 45° elbow used after the first elbow, 1½' must be subtracted from the maximum venting allowed.

Note: (2) 45° elbows = (1) 90° elbow.

Maximum number of elbows for ALL vent configurations = 5

Horizontal Terminations: Venting configurations vary between NG & LP Gas, please consult the installation manual for requirements.

Vertical Terminations: Minimum: 2' Maximum: 50'

Horizontal/Vertical Combo: Venting configurations vary between NG & LP Gas, please consult the installation manual for requirements.

IMPORTANT: The horizontal heat shield included with this fireplace must be installed when incorporating minimum horizontal venting.

In order to continually provide the highest quality product available, features/options, specifications, & dimensions are subject to change. Flame appearance and characteristics may be affected by altitude, fuel type, venting configuration, and other factors. Refer to the unit installation manual for complete installation instructions. Installation must conform with local building codes. **In some regions it may be possible that this appliance qualifies for an energy rebate. See your local dealer for details regarding promotions and qualifications.**
