

#SP34-50A LOG SET

For use with models SP34-L, #SP-34-LE, #SP-34-MV

WARNING: This product can expose you to chemicals including ceramic fiber and/or silica dust which is (are) known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, visit www.P65Warnings.ca.gov

NOTE: Log numbers are located on the bottom of each log. Refer to the following instructions and illustration for proper placement. Your components may look different than the ones shown.

If converting to propane, complete the conversion before installing log set. Follow instructions included with the conversion kit

1. Place log SP34-1A on the back log plate.
2. Align the holes in log SP34-2A with the mounting pins on the left front log plate. Push log down to seat.
3. Align the holes in log SP34-3A with the mounting pins on the right front log plate. Push log down to seat.
4. Align logs SP34-4A, SP34-5A, SP34-6A with the notches in the base logs as shown.
5. Distribute lava rock in front of the burner. Do not block burner ports or airspaces.
6. Distribute rockwool embers onto the logs and burner using a stiff bristle brush.
