DESIGNER HOLOGRAPHIC FIREPLACES

KOZY  HEAT
FIREPLACES

SINGLE-SIDED

TWO

This is what fire was always meant to be.

THREE WAYS TO INSTALL

Single-sided, Corner, or Bay Configuration.

Configured to the architecture, not the other way around.

A modern living room featuring a dark, textured wall. A large, black, rectangular fireplace is flush-mounted into the wall. Above the fireplace, a large, black, rectangular panel is mounted, which appears to be a television or a decorative element. To the right of the fireplace, there is a built-in wooden shelf filled with firewood. In the foreground, a wooden coffee table with a glass top holds a small potted plant and a white container. The floor is covered with a grey and white patterned rug.

SINGLE-SIDED | Flush install in a flat wall. The fireplace becomes part of an architectural feature wall.

A modern living room featuring a dark, textured wall. A large, black, rectangular fireplace is installed in a corner, with the front and one side open. The fireplace is set within a white, minimalist cabinet structure. To the right of the fireplace, there is a built-in wooden shelf filled with books. In the foreground, a wooden coffee table with a glass top holds a small potted plant and a white container. The floor is covered with a grey and white patterned rug. A large window in the background shows a view of greenery outside.

CORNER | Two-sided viewing tucked into a corner. The front and one side stay open, so the fire turns the corner with the room and stays in view from either approach.

BAY | *Three-sided viewing. Fire visible from three sides, the most dramatic configuration. The fireplace becomes the architectural pivot of an open plan.*

FINISHING TOUCHES

Rectangle Surround (1 Piece)
Available in Black

THE FLAME

Seven colors. Four effects. Every mood.

SEVEN FLAME COLORS. FOUR EFFECTS. ZERO COMPROMISES.

HOLOGRAPHIC FLAME | *The first of its kind, 4k LED-projected fire, engineered to look and feel as real as the room around it.*

come alive.

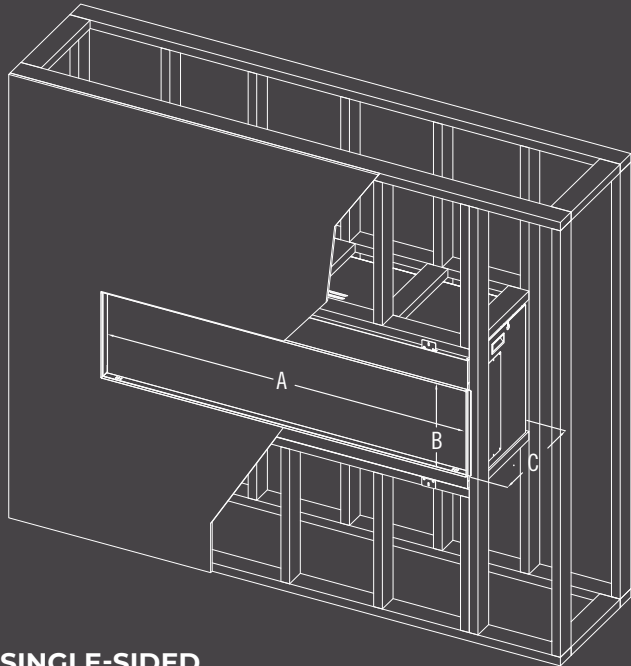

OSSEO X

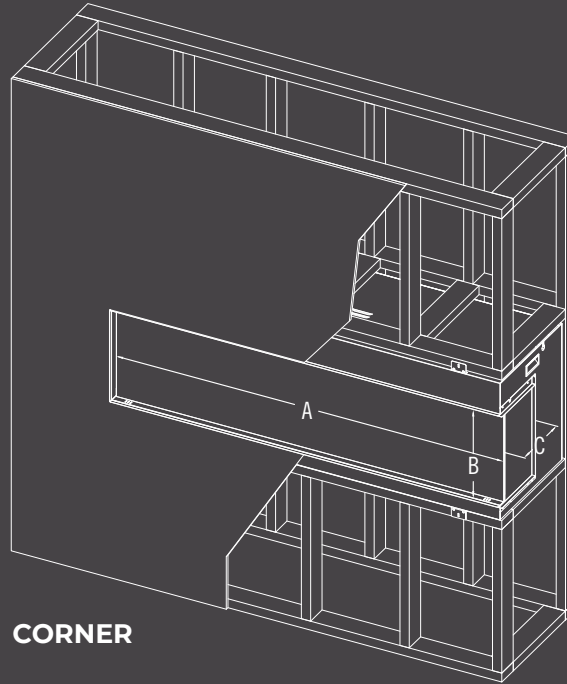

A single remote commands the entire experience. Choose from 7 flame colors and 4 flame effects. Dim the firebed across 13 floor LED settings, from warm amber to ice white. Set a thermostat, schedule a timer up to 8 hours, or activate night mode — all with one touch.
